This contract form was prepared pursuant to Sections 33-513, Idaho Code, and approved by the State Superintendent of Public Instruction, as a contract which may be used by school districts. Any other form must be approved by the State Superintendent, and reviewed for reapproval every three years.
Student and Teacher Handbooks shall be reviewed by the Board. Board approval of the handbooks shall constitute the handbook rules as Board policy.
In compliance with Idaho Code, the Board of Trustees establishes the following guidelines to provide administrative direction pertaining to the retention and/or disposal of District records. This schedule likewise identifies the anticipated physical location of where such records may be kept or maintained by the District, in addition to the possible document retention of all categories of records on the school’s servers and computer systems.

The Superintendent, Board Clerk, or designee, is responsible for the maintenance, safeguarding and destruction of the District’s records. Performance of such duties shall be in cooperation with the District’s Business Office, Directors of Maintenance, Technology Coordinator, the Principals at the school’s buildings and other administrative personnel employed by the District. However, each school employee is likewise responsible for having knowledge of this policy and the requirement to safeguard the District’s records, electronic or otherwise, consistent with the chart below.

The Superintendent, Board Clerk, or designee, shall work in conjunction with the District’s Technology department to assure that the school’s staff is aware of the routine destruction of electronic District records, including emails, such that they are able to assure that the District’s public records are retained consistent with this schedule, regardless of whether they are maintained in a hard copy or an electronic copy. In such a process, the District’s employees need to retain District records included on the schedule below, particularly student educational records, personnel records, and investigative records, in a format that is not part of the District’s routine electronic records destruction and/or notify the technology personnel of the District that a particular document is not to be destroyed as part of the routine destruction of electronic records.

Unless otherwise prohibited by applicable law, all District records may be maintained electronically and/or in hard physical copy.

**Method of Destroying Official Records**

The District’s official records, and any copy thereof that may be deemed to be confidential and/or not intended to be disseminated to the public, will be shredded before disposal.

**Destruction of Electronic Mail/e-mail**

The District will store electronic mail/e-mails for a maximum period of five (5) years. All email will be automatically deleted from the District’s system at the end of this retention period. It is the responsibility of every district employee to assure that District documents that need to be retained for a longer period of time due to federal law, state law or the provisions of this policy are retained accordingly and in a different format than electronic mail. An employee’s failure to retain District documents accordingly could serve as a basis for discipline, up to and including possible termination.

**Suspending of Destroying Official Records**
The District will immediately cease the destruction of all relevant records, including electronic records, even if destruction is authorized by an approved Retention Schedule, for the following reasons:

1. If the District receives a Freedom of Information Act (FOIA) request;
2. If the District believes that an investigation or litigation is imminent; or
3. If the District is notified that an investigation or litigation has commenced.

The Public Records Coordinator, Superintendent, and Board Clerk are responsible for carrying out this policy.

If relevant records exist in electronic formats (such as email, digital images, word processed documents, databases, backup tapes, etc.) the District’s Administrative personnel shall notify its information technology staff to cease the destruction of records relating to the subject matter of the suit/potential suit or investigation. In the event that District records do not correspond to any of the above listed categories, the Superintendent will determine the period of retention for a particular record.

Revised: 12/13/16
All payroll deductions, records, and official transcripts shall be turned into the business office no later than the first of the month after the date of hire, unless prior approval has been given by the superintendent.

ADOPTED: 11/15/82
Effective the date of this policy no incumbent of an administrative position may supervise directly a member of his/her immediate family. For the purpose of identifying the scope of this policy, immediate family is defined as spouse, son, daughter, sister, brother, mother or father. Alternative supervision will be arranged by the Superintendent with Board consultation.
At the beginning of each school year, each employee shall be credited with one sick day for each working month to be used for absences caused by illness, injury, poor health, quarantine, or physical disability. The unused portion of such allowance shall accumulate from year to year.

Upon retirement, the employee may use their unused sick leave to pay their health insurance. The rate of sick leave is to be equal to ½ times the accumulated sick leave at the time of retirement times the daily rate.
